

VAN BAERDT E800 TENDER

The Van Baerdts e800 is the first tender designed for fully electric sailing. This stylish tender is comfortably equipped with a powerful electric motor which makes it possible to enjoy long periods of quiet time on the water. The tender has clean lines and is manufactured in aluminum, which is recyclable and therefore sustainable. The walkable parts of the interior are fitted with Permateek, a maintenance-free material that will not discolor. Silverguard was chosen for the cushions to ensure a luxurious look and guaranteed top quality. Also on board are a spacious sun deck, navigation system, audio and an electric toilet. The Van Baerdts e800 is now on display in our showroom.
