

ANTARIS SIXTY6

Are you looking for a stylish, high-quality sloop that will let you enjoy carefree, relaxing days on the water for years to come? Then this Antaris Sixty6 is exactly what you're looking for. This beautiful, high-quality Dutch boat combines a classic look with modern comfort, excellent handling, and a reliable Vetus diesel engine. Thanks to its well-thought-out design, the Antaris Sixty6 is popular with both recreational boaters and water sports enthusiasts who value quality, comfort, and timeless design.

The round-bilge hull ensures exceptionally stable and comfortable handling. As a result, the boat glides smoothly through the water and is equally at home on lakes, canals, and larger inland waterways. With its shallow draft of just 70 cm and a clearance height of approximately 1.10 meters, you can also effortlessly reach the most beautiful cruising routes.

This Antaris Sixty6 was built in 2013 and is in good condition. The reliable 27 pk Vetus three-cylinder diesel engine has only 332 operating hours, which is exceptionally low. The quiet and fuel-efficient inboard engine is known for its reliability, low maintenance costs, and comfortable handling.

A great deal of attention has been paid to comfort on board. The spacious open cockpit can accommodate a large group and is finished with modern gray upholstery. In addition, the boat features an electric refrigerated drawer, a Porta Potti, an integrated

swim platform with a swim ladder, and a sprayhood, allowing you to enjoy every boating season to the fullest. Thanks to the self-draining cockpit and electric bilge pump, safety and ease of use have also been taken into account.

Whether you’re taking a relaxing day trip with family and friends, enjoying a peaceful evening cruise through the Frisian waters, or looking for a comfortable sloop for longer recreational trips, this Antaris Sixty6 offers everything you’d expect from a quality boat.
