

RAPSODY 40 FT. OFFSHORE EGEMAR

This beautiful 2006 Rapsody 40 Ft. Offshore “Cirrus” is a stylish and comfortable motor yacht for those who value quality, space, and carefree cruising. With her distinctive Rapsody lines, spacious open cockpit, and classic, warm interior, she offers a unique combination of sportiness and comfort. With a length of 11.88 meters, a draft of just 90 cm, and a clearance height of 2.75 meters, this is also a highly versatile yacht suitable for both longer voyages and exploring the Dutch inland waterways. The model is known for combining the comfort of a cruiser with the open and sporty character of a motor yacht.

“Cirrus” has been very well maintained. In the summer, the boat was always stored in a boathouse, and during the winter months, it was kept in a heated storage facility. This is clearly evident in the boat’s well-maintained condition. The spacious open cockpit is a wonderful place to socialize and features a comfortable round seating area and a cockpit table.

The interior layout is also exceptionally practical. The salon has a headroom of approximately 1.95 meters and offers plenty of space and comfort. The dinette table can be lowered, allowing the cockpit to be easily converted into a spacious sleeping area. The owner’s cabin is located at the bow and features a comfortable sleeping area with a French bed. The bathroom is accessible both directly from the owner’s cabin and from the hallway—a very practical layout that offers plenty of privacy. The second cabin

features a fold-up bunk bed, allowing this space to be used flexibly as a guest cabin while maintaining plenty of room to move around when the sleeping berths are not in use. The galley is fully equipped with a two-burner stove, oven, and two electric refrigerators. Heating via a Webasto hot-air heating system makes the boat comfortable even outside the high season. The layout and interior reflect the Rapsody 40 Offshore’s signature comfortable cruiser design.

For propulsion, “Cirrus” is equipped with two Volvo Penta D6 diesel engines, each producing 370 pk, with only approximately 1,208 operating hours. The combination of two engines, electric bow and stern thrusters, and trim tabs makes the yacht exceptionally maneuverable. The maximum speed is approximately 26 knots. On board, there is also a complete Raymarine navigation system, including an Axiom GPS/chartplotter, ST60+ log and depth sounder, ST6002 autopilot, and marine radio.

With its spacious deck, comfortable cabin, practical cabin layout, complete equipment, and excellent maintenance history, this Rapsody 40 Offshore is a particularly attractive yacht for long weekends, vacations, and comfortable cruises on both inland waterways and at sea. The purchase of the current boat house in Heeg is also negotiable, giving a new owner the opportunity to acquire not only a beautiful boat but also a suitable mooring.
