

## VENEGY V37

This beautiful 2020 Venegy V37 'Amazing Grace' is in absolute top condition. This boat is characterized by her aluminum hull with elegant and sleek lines, 360 degree panoramic window and bold color scheme. The underwater hull is specially designed by Petestep which makes the boat more efficient from the engines, consumes less fuel, has a very stable position and no spray. The boat is propelled by two economical Volvo Penta engines of 340 hp each with only 350 running hours. This allows the boat to achieve a top speed of 38 knots. This boat has been developed with a patented Petestep underwater hull which gives the boat more elevator and consumes 20% less fuel and gets into planing faster.

Thanks to its clever layout, the V37 is perfect for year-round cruising. In the cockpit you will find a sun bed and a spacious round seat with comfortable cushions. You will also find two spacious refrigerators, a stove and sink with hot and cold water. A bimini with carbon posts provides shade on sunny days. The wheelhouse is lockable with a robust sliding door and the first thing you notice is the 360-degree view all around. The roof is also largely made of glass and the entire front section can be slid open. The dashboard, like the hull and superstructure, is made entirely of aluminum and painted along in the chic metallic gray color that pairs perfectly with the cognac brown leather. In the cabin there is a double bed, spacious hanging locker and a luxurious wet room with an electric toilet and shower. Furthermore, this Venegy is equipped with a generator, air conditioning, Volvo Joystick steering, electric windlass, matte black anodized deck

fittings and a 12" chartplotter.

This ship is in winter storage, viewing is possible by appointment.
